Subject: sonic anemometer for the QAPP
Sonic QA text.docx
QAPP Radford 09-12-2016.docx

Tegan,

I've cut sections out of the attachment Shrock sent entitled "Quality Assurance Project Plan for the National Air Emissions Monitoring Study (Open Source Emissions Component)".

Please use the format of the existing Radford QAPP (attached), and write up a section on the sonic anemometer.

I don't know if you need turbulence measurements?

This might be confusing at first; just work your way through it and we can fix it up tomorrow (?).

Thanks!

Brian
